Respect Opens All Doors.

Employment History

Protech Automotive Solutions | Denver CO
December 2018 – Present
Helped innovate the usage of the ADAS calibration equipment we currently use. First in market in CO, first to utilize mobile PCU trucks, first to utilize mobile PCU vans which was used as the template for extrapolation across the nation for Caliber Automotive Solutions. Communicates with shops and individuals aking plans to make everyone happy while simultaneously solvin the problems. If I am unable to make everyone happy, I do my best to be the fairest I can be. Follow service procedures layed out in manufacturers literature, while also making sure to stay within Caliber/Portech boundaries as well. I properly document every action, and cleanly store evidence, and reference for every event I am involved in for both my protection, as well as the companies.

Astech | Denver CO
December 2018 – Late 2018
Operated the control unit that transfered data from casr to the remote site in Texas that would then scan the vehicle, and reommend service procedures based on the repairs which I would then turn into a report that is sent to the shop.

Diagnostic Technician at Volt Workforce Solution | Lake wood CO
December 2017 - 2018
Use AsTech scan tool on cars with OEM port installed to diagnose, and assist master technician in filling out reports for the technicians who work on the cars.
Responsible for ensuring billing disputes between the 3rd party company, and AsTech are resolved appropriately.

Manager at Randy Curry | Kernersville NC, Ocalla FL, Hickory NC
July 2016 - November 2017
Manage small workforce of people who work with upwards of $2k Cash.
Made schedule, worked with upper management, and employees to ensure employees were happy.
Closing paperwork describing daily ins/outs/net, and transfer data to final paperwork for month end books
Processed Payroll

Courier for cash upwards of $10k

Lead Line Cook at Jkes Billiards Bar and Grille | Greensboro NC
October 2015 - July 2016
Lead line team in the creation and proper presentation/plating of foods, this was the busiest bar on spring garden street, a 3 miute walk from UNCG (biggest state college in NC), so we were SLAMMED all the time. Very high energy, problem solving skills, angry customer de-escalation, team building and retention

Window Screener/Float Tech at Atrium Windows and Doors | Greensboro NC
August 2013 - October 2015
Meet metric requirements on window screening including regular, and heavy duty, custom oders cut to size each night numbering between 10-20 doors.
Package doors on carts (from 50-300 per night), and in bags to ensure safety during shipment.
Scan doors out and run tight inventory on lots of materials, and on completed doors. Quality compliance before doors go out each morning to ensure customer receives what they ordered the first time.

Lister/Tech at Remancenter | Reidsville NC
October 2010 - August 2013
Receive incoming orders, and ship industrial electronics. Organize, and list on the website with part number, name, drive type, etc the new inventory that came in daily. Test applicable parts with appropriate devices utilizing safe electronics practices to ensure operational quality of parts before being listed. If not operational, or if I suspect function is not 100%, attempt to solve problem personally, if i coulnd't escalate the issue to the master shop tech with a description of the problem.

Educational History

University of Denver with EDX | Denver, CO
